Docket No. 98N-1265

Food and Drug Administration

5600 Fishers Lane

Rockville, MD. 20857

1997 99 MAY 18 10:51

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: My experience with the standard HRT of Premarin & Provera was terrible - migraine headaches, depression on Provera, & moodiness. My physician worked with me & the Madison Pharmacy/Women's Health America to find a HRT program that could help protect my heart & bones, both of which have had some symptoms that needed help, and only because we had the possibility of working with adjustable combinations have I been able to avail myself of the benefits of HRT.

Please do not restrict the wonderful work that's done by these dedicated professionals who are willing to take the extra time & effort needed by us women who don't fit nicely into the formulas formulated by the big drug companies. C2232

Sincerely, E. Corinne Mc Grail
